

Bibliography Section Action Plan 2011-2012

The activities of the section are very much focused on national bibliography advocacy and in particular the impact of digital publishing. Thus, the action plan is very much in alignment with the IFLA key initiative: *A programme advocating the role of libraries in providing digital access to content in their communities.*

The nature of the section activities is a mix of documentation, guidelines, knowledge sharing and papers/presentations.

At least one action should link to IFLA's Strategic Plan priority activities. Since these are not yet known for 2012, for the time being they are linked to the priority activities 2010-2011¹
