

# **IFLA Document delivery and Resource Sharing Section**

## **Action plan 2015**

### **1. Mission statement**

The Section on Document Delivery and Resource Sharing is the forum in IFLA for libraries and associations concerned with making information in all formats available throughout the world through a variety of resource sharing and document supply techniques.

The section strongly believes that information is for the use of our users and facilitating the use of information across institutional and national boundaries is our duty as resource sharing professionals. The section also analyses the changes and developments in the current information environment as well as critically incorporating technological developments. The section provides guidance and leadership in resource sharing principles and practices for the benefit of our users.

The section supports the idea of the global library as a networked resource sharing organism that enables access to resources through the collaboration of libraries worldwide.

### **2. Goals**

2.1. The Section's primary objective is to extend and improve document delivery and interlending both nationally and internationally through the use of new technologies and increased cooperation among libraries and document suppliers.

2.2. Increase awareness about innovations in resource sharing practices such as interlibrary loan, document delivery, cooperative collection development, shared purchasing or licensing of electronic resources, collaborative approaches to digital repositories, or other areas in which libraries share resources to fulfil a common goal.

2.3. Increase awareness about the possible benefits of resource sharing.

2.4. Increase the possibilities of libraries to actively implement resource sharing tools and services (e.g. copyright).

2.5. Bring together resource sharing practitioners and professionals from around the world for networking, education, and the development and spread of enhanced resource sharing services and collaborations.

2.6. Promote the importance of resource sharing in fulfilling its part in the Lyon Declarations issues.
