The international user sessions amount to around 70%, while the Danish share - including the Office - is around 3-5%. The remaining 24-25% is of unknown origin. As to be expected, the most active countries are USA, Denmark, UK, Canada, Norway, Sweden, Finland, France, Australia, New Zealand, The Netherlands, Japan and Germany, but also Russia, Spain, South Africa, Malaysia, Hungary, Croatia, Lithuania, Mexico and the United Arab Emirates, are among the frequent users.
