

**Indigenous Matters Section  
ANNUAL REPORT  
2015-2016**

There is no formal 2015-2016 annual report for the Indigenous Matters Section. The reason for this is the successful establishment from special interest group to Section status achieved in January 2016. 2015-2016 has focussed on existing action plan items and the establishment of the Section and subsequent publicity for nominations to the inaugural Standing Committee. The work towards Section status has been time intensive with successful promotion at the International Indigenous Librarians' Forum held at the University of Manitoba, Winnipeg, Canada in August 2015.

A formal report will be provided for the year 2016-2017, which coincides with the first face to face meeting of the Standing Committee, at Congress, Wroclaw, Poland.
