

723 FAMILY NAME – PROVENANCE OR OWNERSHIP (NEW)**Field Definition**

This field contains the name of a family regarding any type of provenance and / or ownership (previous ownership or custodianship), that apply uniquely to the *item*.

Occurrence

Optional. Repeatable.

Indicators

Indicators are as for field 720

Subfields

Subfields are as for field 720 with the following addition.

\$5 Institution to which the Field Applies

Name of institution to which field applies in coded form if it is considered necessary by the agency which create the record to identify specific attributes of an item.

If the subfield is used codes should be entered in accordance with the provisions of *International Standard Identifier for Libraries and Related Organizations (ISIL)*, ISO 15511. (Existing records may contain codes from *MARC Code List for Organizations*, the full name of the agency or a national code.)

If the institution holds more than one copy the shelfmark of the item should be added after a colon. Not repeatable.

Notes on field contents

The same guidelines apply as for field 720.

This field is primarily intended for use in holdings records. However, if the agency which create the record do not use the *UNIMARC Holdings Format*, and the attributes of an item are created at bibliographic record level, this field is used, where applicable, for entities (family names) that have any kind of provenance and / or ownership regarding a specific *item*.

Subfield \$5, code of the Institution to Which Field Applies is used only when the provenance or ownership apply to an individual copy.
